

HYDRA-POWER®

The Hydra-Power® is Hydra-Stop's turnkey, portable hydraulic power unit designed to meet the demands of today's waterworks professionals.

With rugged construction, dependability, and outstanding performance, the turnkey, easy-to-set-up Hydra-Power® hydraulic power pack delivers both performance and value. The lightweight steel frame allows for portability while still adding strength and protection during day-to-day operation. The large oil reservoir keeps things cool even when powering through a long tap.

FEATURES

- 13 HP electric start engine
- 12v battery rated to 230cca at 0deg
- Two 50-foot hydraulic hoses, 1/2" SAE 100R16-rated hose
- Three sets of Quick Connect hose couplings with dust caps
- 15 gallon hydraulic oil reservoir with in-tank filter kit
- Combination temperature and sight gauge
- Skid mounted with protective cage. Hydra-Power unit can be lifted with a forklift with or without straps

Three sets of Quick Connects, with dust caps, are included.

SPECIFICATIONS

- Dimensions: 44 1/2 L X 24 1/4 W X 22 1/4 H
- Weight: 304 pounds (with full hydraulic tank and fuel load)
- Output: 9 GPM @ 1700-1800 psi.
- 13 HP Electric Start engine
- Hydraulic oil recommendation: all purpose, petroleum based hydraulic oil, ISO Grade 32
- Normal operating oil conditions: 37-54C / 100-130F
